

ARK Test Instrument Listing

No.	Facility	Photo
1	3D Coordinate Measuring Instrument	
2	Cold Jet Dry Ice Deburring	

3	Digital Melting Point Machine	 A digital melting point machine with a blue base and a white control unit. The control unit features a digital display showing '8888', a power button, and a temperature control knob. A glass tube with a bulb is attached to the front, and a small metal stand is on the right.
4	Electrostatic Instrument	 A digital surface resistance meter (DESCO) with a black and grey body, connected to two yellow cylindrical capacitors via red and black wires. The meter has a digital display showing '46.50' and several control buttons.

5	Friction & Wear Tester	
6	Impact Strength Testing Machine	
7	Laser Marking Instrument	

8	Projector	
9	Roughness Tester	
10	Surface Hardness Tester	

11	Ultrasonic Flaw Detector	
12	Universal Laboratory
